

YOU SAVE. THEY LEARN.

The FireFly Do-It-Yourself Chromebook Repair Station

At FireFly we're reimagining what a vendor partner can do to help schools buy, manage, and maintain their classroom technology. Our FireFly Do-It-Yourself Chromebook Repair Station extends the life of your devices with all the tools and training needed for two people to perform over 50+ common Chromebook Repairs.

EMPOWER STUDENTS WITH WORLD-RELEVANT SKILLS

The FireFly DIY Chromebook Repair Station is perfect for student-led repair programs. The included step-by-step repair videos teach students lifelong skills they can be proud of, and students gain a well-deserved sense of accomplishment seeing the devices they repaired being used again in the classroom.

INCLUDED WITH THE REPAIR STATION

Deluxe mobile storage cart and 10 slide-out bins with customizable internal dividers

30+ professional tools and supplies for two or more repair technicians

Access to FireFly's full library of simple step-by-step instructional repair videos

Parts for completing 50+ common repairs handpicked for your devices

On-demand consultation with FireFly Repair Technicians for live Q&A

Easy online portal for ordering additional Chromebook parts
